

Investment Dashboard

Welcome to our platform's investment dashboard. Here, you can access comprehensive data analytics for all your investment activities, including profits and portfolio management. Below are key features and functionalities available to you:

1. Investment Overview:

- **Deposit Balance:** Represents the total funds you've deposited into your account.
- **Profits Balance:** Reflects earnings derived from profits, bonuses, and rewards.
- **Contract Balance:** This acts as your portfolio management wallet, akin to a fixed account with an interest rate. Withdrawals from the contract balance are processed via email. Alternatively, withdrawals can be made from the profit balance.

2. Messaging Center:

- Receive important communications from the administration regarding your platform activities.

3. Reward Center:

- Access rewards and redeem vouchers offered by the platform. Click "Redeem" to add the value to your profit balance. Enter voucher codes to redeem corresponding values.

4. Referral Program:

- Your referral ID serves as your promo code, which you can share with friends and family. Earn referral bonuses when your referee makes a deposit. Additionally, you can support your referrals by sending funds directly to them.

5. Activity Log:

- View and print receipts of all your activities for safekeeping.

6. Deposits:

- To deposit funds, navigate to the menu and select "Deposit." Choose your preferred method, follow the instructions on the subsequent page, and confirm the transaction with the provided details.

7. Withdrawals:

- Initiate withdrawals by selecting "Withdraw" from the menu. Enter the desired amount, select the destination wallet, and provide necessary details. Your request will undergo review and processing. You can also print withdrawal receipts for your records.

8. Investments:

- Explore investment opportunities by accessing the "Assets" section from the menu. Select your preferred asset and choose a suitable investment plan. Funds for investment will be deducted from your deposit balance. Monitor your investments under the "Deployments" section. You have the flexibility to stop investments at any time and extract available profits, which will be credited to your profit or portfolio balance upon completion of the investment duration.
